

Exceptional
Hardware For
an Exceptional
Lifestyle !

Presenting an
array of superb
craftsmanship

Company Info

Architectural Hardware is a matter of creating harmony between many things. A fine-tuned balance of designs, colours, textures, and patterns and functionality is of utmost importance. To get the desired outcomes, it is imperative that the designers' thought, the materials used, and all other components are in perfect harmony.

With this approach, Red Copper has sparked the ripples and established its own niche in the architectural hardware market. In a short span, the company has made a reputation for itself thanks to its aggressive approach and well-balanced offerings in all types of architectural hardware, especially handles for doors, drawers, and cabinets.

The company has invested considerably in establishing up its own state-of-the-art, production facility to ensure continual perfect quality. There are in-house capabilities for product creation, raw material testing and quality control, and reliable packaging in the setup.

Quality assurance is a top priority at Red Copper; therefore, we are confident in our products' long-term reliability.

Vision

Serve the architectural hardware market by providing high-quality goods and honest business procedures.

Mission

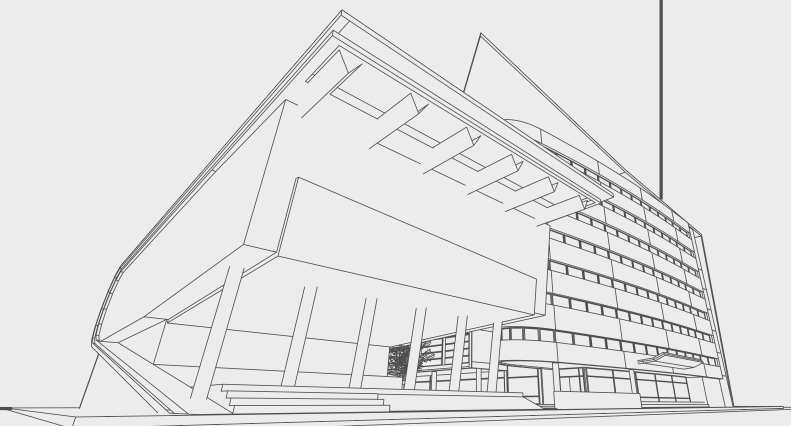

Developing new product offerings that are cutting-edge.

Expanding our product line to include additional hardware categories while maintaining the highest quality of our goods.

Creating and cultivating a pool of talented employees.

The Red Copper Edge

With our own engineering design studio, advanced manufacturing facility, and quality control, as well as trustworthy, transparent dealing, we've become a preferred option for the top companies in the industry.

A close-up photograph of a modern wooden cabinet. The main part of the image shows two large cabinet doors with a vertical wood grain. They are equipped with brass-colored handles that have a distinctive L-shaped design and black circular knobs. To the right, an open shelving unit is visible, featuring three shelves with integrated warm-toned LED lighting. On the top shelf sits a small white pot with a green plant. The middle shelf holds a white cylindrical container, and the bottom shelf displays a small, dark glass bottle with a gold cap. The overall aesthetic is contemporary and sophisticated.

COLLECTION

Shapes of Class

A modern bathroom vanity featuring a black countertop, a black sink, and a wooden cabinet with a brass handle. A large window with black frames is in the background.
